IEC 62351 – OT Cyber Security Certification for energy networks

Your Trusted Partner for testing and certification, ***now including IEC 62351 series of standards for cybersecurity***

One stop Certification for your substation equipment

- **Smarter grids** need **stronger cybersecurity**. IEC 62351 series secures data and ensures interoperability.
- Substation automation products, including components such as **RTUs** and **IEDs**, can be secured according to **IEC 62351 standard**
- We offer the **only KEMA Labs-branded certification** for **Cybersecurity** on substation equipment.

Our Service Package includes:

- **Advisory** and support for IEC 62351-3 implementation.
- **Verification and Conformance Testing** of **IEC 62351-3.**
- **IEC 62351-3** testing of TLS-secured **TCP/IP** communications.
- Verification of security mechanisms for **confidentiality**, integrity and **authentication.**
